

Personnel Lift Part

Personnel Lift Part - Elevating workers to overhead racks or shelving units, the fold down work platform is really convenient and safe. When not being used, this accessory could be simply folded and after that kept out of your way. It includes a a long chain, a tine lock, and a checker floor plate platform along with hook so as to attach the platform to the work truck. This particular platform is made of welded steel and like numerous other attachments, has the blue powder coat finish for durability.
