

Forklift Spreader Bars

Forklift Spreader Bars - ELME has been proudly operating since 1974, becoming the biggest independent spreader manufacturer all-around the world. They are a devoted manufacturer of spreaders intended for numerous different applications like for instance the trailers, handling of containers and swap bodies.

Engineering is done in house by way of using the latest FEM tools and CAD systems. The ELME business currently employs more than one hundred twenty five employees. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes all-around the world.

The ELME product range offers spreaders meant for different trailer and container handling operations. A few of their inventory include: Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle carriers, Ship to Shore Spreaders and a huge array of additional parts.

Manufacturing and production of ELME products are established in highly automated purpose built factory. In the year 2008, they made one thousand one hundred fifty spreaders by means of utilizing quality components to ensure dependability and top standards. Major features of ELME consist of design simplicity, market reaction and inventive modular spreader concept.
